Hair and Body Mist - Halfeti and Empressa

English Heritage Perfume House, Penhaligon's of London, will launch a new fragrance offering within the brand's Bath and Body range this Summer. The hugely successful Hair and Body Mists will now be available in two of Penhaligon's best-selling scents: Halfeti and Empressa, which will allow fans of both ranges to complete their scent experience with a delicate final touch.

HALFETI

Penhaligon's intoxicating fragrance is now available in a moisturising Hair and Body Mist. Moisturising Argan Oil, combined with heady Turkish Rose, conjures romantic reminiscence of distant lands.

The Hair and Body Mists can be used alone to condition and lightly scent the skin and hair, or used in conjunction with other Halfeti and Empressa products as part of a fragrance layering experience. The Mist represents the final addition to the layering process, adding to the longevity of the fragrance experience, whilst locking moisture into the skin.

Penhaligon's Hair & Body Mists are all alcohol-free. Argan Oil is the ideal ingredient for moisturising the hair and skin as it contains nourishing vitamins and minerals, such as Vitamin E - essential for maintaining the skin's elasticity. For best results, apply the Hair and Body Mist after the shower as the final part of your fragrance layering experience.
