ELEMIS

NEW PRO-COLLAGEN ROSE FACIAL OIL

This ultra-lightweight dry oil smoothes the appearance of fine lines and wrinkles for a fresh, dewy look. Exquisitely scented, this oil uses a precious trio of nourishing Rose Extracts from up to 17 different rose varieties, Mediterranean algae and Padina Pavonica to leave your skin feeling soft and looking radiant.

Pro-Collagen Rose Facial Oil is a beautiful synergy between nature and science captured in a bottle. An artisanal trio of soothing rose extracts targets fine lines and wrinkles, leaving the complexion looking smooth with a dewy glow. This union is perfectly suited to address the first signs of ageing for all skin types, including sensitive.

—NOELLA GABRIEL, ELEMIS CO-FOUNDER

KEY INGREDIENTS *A Bouquet of Benefits*

ENGLISH ROSE OLEO EXTRACT

Delicate petals from up to 17 different rose varieties are hand-harvested in the UK and steeped in safflower oil, creating this decadent extract that helps to leave skin feeling soothed with moisture.

ROSA DAMASCENA

Carefully hand-picked due to the fragile nature of the petals, this rose yields a delicate, light fragrance.

ROSEHIP SEED OIL

A rich nourishing oil that helps to replenish and support the skin's lipid barrier, leaving skin feeling replenished, nourished and hydrated.

Our Artisanal ROSE HARVEST

Nestled deep in the English countryside is a family-owned farm, where up to 17 varieties of organic roses are harvested by hand to create our English Rose Oleo Extract. For centuries, roses have been prized for their superior soothing and nourishing skin benefits. The exquisite aroma featured in these Pro-Collagen products transports you to a quaint English garden filled with blooming roses.
