

MORE THAN 80 YEARS OF BEAUTY REVOLUTION MADE IN FRANCE

Give women the means to develop their beauty potential and make their skin naturally prettier, without excess: Ella Baché is the story of that commitment.

A beauty-revolution that started in 1936 in Paris with one of the first pharmacist women who became one of the pioneer icons of skincare and diagnosis. She is at the root of a unique science of skin care : NUTRIDERMOLOGIE®.

NUTRIDERMOLOGIE®

The Ella Baché laboratory is a pioneer in the identification of the nutritional needs of the skin as well as the research of actives coming from premium food (antioxidant Tomato Lycopene, filling Essential Nutrients of spirulina, strengthening Lactic Probiotics...). It elaborates the internal and external skincare from ground-breaking active extracts. Because they are made from natural food recognized by our organism, they guarantee an optimal tolerance and a maximum assimilation of the beauty nutrients by the skin, for an ideal cellular bio-responsibility. The respect of the skin and the "health" vigilance are a must. Therefore, the components of the internal and external skincare answer a quality chart aiming to reduce as much as possible: parabens, mineral oils, coloring, endocrine disruptors, alcohol, silicone, phenoxyethanol, artificial flavors.

Ultra-personalized, the Ella Baché face and body beauty solution works with internal and external skincare:

- The internal skincare, food supplements and dermo-dietary beauty recipes, act on the deeper layers of the skin.
- The external skincare, cosmetics, ensure a targeted cellular and cutaneous nutrition.

ICONIC PRODUCTS AND SIGNATURE TEXTURES

Iconic products have joined the Tomato Cream, the first product Ella Baché created in 1936 for the radiance of the skin. Among them: Spirulina Wrinkle-lifting Cream, the Skinissime trio, Magistral Serum Tissulex 14%, Magistral Mask Intex 43.3%...

Ella Baché is also known for her repairing textures adapted to extreme climates and skin conditions: Eyelash Make-up Remover, Intex Cream, Magistral Hydra-Cationic 17.9%, Hyaluronic Moisturising Jelly and Magistral Cream-mask Rejuvenium 27%...
