

# BABOR AMPOULE SERUM CONCENTRATES

## Precious Collection

*September 2020*

Works at cell speed. To give our beauty all the time in the world: **BABOR AMPOULE SERUM CONCENTRATES Precious Collection** in rose gold, gold and platinum not only looks elegant, but is also cleverly conceived: It works with cell precision and in a matter of seconds. When you crack it open, you will experience perfectly dosed high-performance active ingredients that act exactly where it matters: on the skin cells. All ampoules contain a mineral energy complex, consisting of magnesium, zinc and copper, to support the energetic processes in the cells. The highlight: if you replenish the energy of skin cells, they age more slowly. The rush of slow ageing!

**The 7-day treatment series at a glance:**

**Days 1 to 3: Rosé Gold Energy** – The rose gold ampoule charges the cells' energy level overnight.

**Days 4 to 5: Gold Volume** – The golden ampoule smooths the skin from the inside out.

**Days 6 to 7: Platinum Lift** – The platinum ampoule with instant lifting effect provides radiance and strengthens the skin structure.
